PBF-56 LINKAGE SUPPLEMENT

This part is 1/4" thick.
It fits in the middle of the
stock pedal "fork".
The bolt supplied will
fit through the lower hole.
Two washers fit on each side
to act as spacers.
The linkage to the booster will
now fit to the lower hole of the
ratio adapter - -
using the bolt provided.

To make driving more comfortable, the pedal may be shortened at the top - max 2"
