

CC-10 COOL CAP

You will need:

- 1 piece of 1 1/2" fuel hose approximately 2" of length
- 1 piece of 1 7/8" fuel hose approximately 3 1/2" of length
- 2 large hose clamps

The 1 1/2:" hose will fit on the cool cap and fill the gap. Cut the 1 3/8" hose to fit from the tank up to the bottom of the wood.
